

# ThreeBond

## NO. 1 IN JAPAN

### THREEBOND 1104 NEO LIQUID GASKET

Used to cover rough surfaces, fills gaps and holes. Prevents leakage of fluids such as water, oil, gasoline, gas and chemicals.

#### Characteristics

Gray Semi-Drying Liquid Gasket  
Available in 25 and 80 gram tube  
Temperature Range of -40 to 150°C  
Lead Free

#### Application:

For Oil Pan, Oil Filter Fittings, Transmission Cover, Water Inlet and Outlet, Fuel Pump, Oil Pump, Cylinder Head Surfaces, Motorcycle Crank Case Cover, Gear Box Casing, Motorcycle Engines, Outboards

#### Features

Grey color like aluminum, excellent metal to metal seal.  
Cures to a rubber-like elastic material.  
Tough, flexible, pressure, shock and vibration resistant.  
No risk of falling inside the engine to cause blockage or oil circulation problems.  
Suitable for large clearances. Eliminates the need for solid sheet gasket  
Heat, Water, Oil, Petrol, Gear Oil, Liquid Coolants, LPG Resistant.  
Fully compatible with gas converted engines.

#### Handling Method

Thoroughly clean surfaces. Apply evenly to one surface.  
Wait 1 minute then proceed with assembly.

### THREEBOND SUPER BRAKE CLEANER

Removes gear oil, grease, metallic powders, leather chips etc. from the brake lining, brake pad, brake shoe and brake drum.

#### Characteristics

480 ml Aerosol Can

#### Features

Fast drying (30 seconds)  
Stops creaking of brake

#### Handling Method

Spray onto brake lining for 10 seconds.  
Allow to dry before wiping off dirt with a cloth. Leave to air-dry further

### THREEBOND SUPER ENGINE CONDITIONER (For Diesel)

Cleaning agent for removing sludge, varnish, carbon etc. deposited on the wall of the carburetor, intake valves, combustion chamber without the need for dismantling. Used to clean the fuel injector, prevent poor combustion.

#### Characteristics

240 ml Aerosol Can  
Available for Gasoline Engine and for Diesel Engine

#### Features

Restores lost power and acceleration. Reduces exhaust emission. Increase fuel economy

### THREEBOND 1803C SUPER LUBRICANT

#### Multi-purpose:

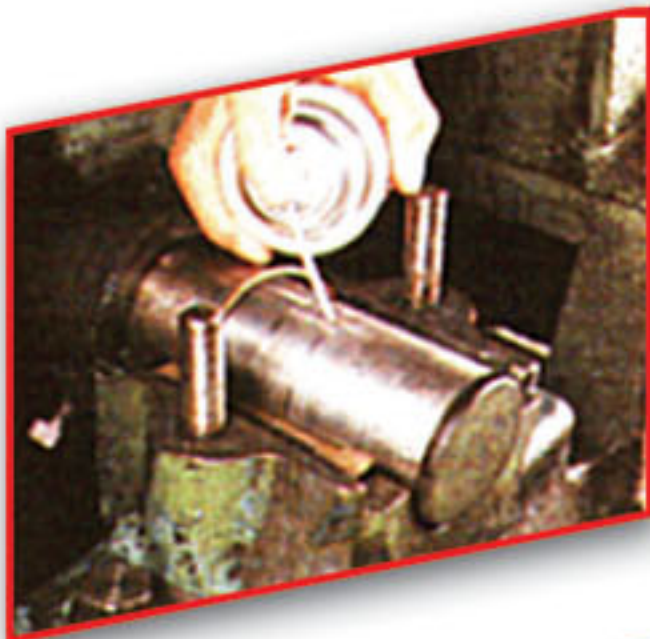

Penetrant and Lubricant, Moisture Repellant,  
Anti-Rust Agent, Loosens Screws and Seized Bolts

#### Characteristics

Transparent color  
400 ml Aerosol Can  
Environment friendly, CFC Free, Odorless

#### Application:

For rotating shafts, bearings, bolts, locks, plugs, distributors, generators, ignition terminals and other electric parts.  
Easily starts engines.

#### Features

Non-staining. Non-deterioration to metal, rubber, painted surfaces, plastic or wood  
Penetrates stains and dirt, making them easy to wipe off.  
Lubricates moving parts and eliminates squeaks  
Anti-corrosive film covers surfaces preventing rust  
Loosens seized bolts with its permeability

#### Handling Method

Spray evenly on moving parts or seized bolts to loosen  
To remove rust stains, spray and wait for 5-10 minutes then wipe off with steel wool or rag

### SUPER CHAIN LUBE

#### Characteristics

120ml Aerosol Can  
Multi-purpose Lubricant/Penetrant  
Anti-rust and Anti-dust

#### Application

For rust prevention and lubrication of chains used in forklifts, motorcycles, agricultural machines.

#### Features:

Superior in permeating fine areas such as the pin brush.  
Prevents the chain from getting stretched or rusty, even under low temperatures.  
Suitable for use with moving metallic chains, from high speed to low speed.  
Has an appropriate level of viscosity and the lubricity remains in the chain.
